**RE: RESPONSE TO COMMENTS ON DRAFT WORK PLAN, PHASE IV
REMEDIAL INVESTIGATION, NORTHEAST CAPE, ST. LAWRENCE
ISLAND, ALASKA, HTRW CONTRACT DACA85-03-D-0003, DELIVERY
ORDER #006**

Shannon & Wilson have prepared responses to the comments received from the United States Army Corps of Engineers (USACE) and others regarding our Draft Work Plan for the project referenced above. These responses are included as an attachment to this letter. As discussed with you over the telephone, the majority of comments received from USACE are accepted and the appropriate revisions, additions, and/or clarifications are noted. There are a few items that warrant additional discussion. On the other hand, many of the comments received from non-USACE persons express concerns and/or questions that involve the scope of work and not necessarily the performance of the work. These responses have not been addressed because Shannon & Wilson was not involved in the preparation of the scope of work or the review of previous investigation results.

We look forward to working with you to finalize these plans and await your response to the proposed revisions to the Draft Work Plan. If you have questions or comments regarding the attached comment response forms, please contact Randy Hessong or the undersigned at (907) 561-2120.

Sincerely,

SHANNON & WILSON, INC.

John Spielman, C.P.G.
Project Manager
