In-Active Installations Section

SUBJECT: Appreciation For Exceptional Performance

Mr. Calvin E. West, P.E.
Montgomery Watson
4000 Credit Union Drive
Suite 600
Anchorage, Alaska 99503-6647

Dear Mr. West:

This letter is to show my appreciation for the exceptional performance of your staff in completing the remedial investigation of the four Kodiak sites and the two St. Lawrence Island sites. Your entire staff is recognized and commended for the outstanding work which was required to complete these six projects. All the projects were completed on time, without modification, and under the contracted amount. I would like to give special credit to Mr. Victor Harris for the outstanding job he did in coordinating your staff's efforts to provide the Alaska District with exceptional Final Remedial Investigation reports on these sites. I have greatly appreciated the extra effort that Mr. Harris contributed. Mr. Harris has provided a truly professional consultant service to the Alaska District, which was a tremendous aid in meeting the challenges that arose during the investigation of these sites. Mr. Harris has proven to be a true asset to the staff of Montgomery Watson and to the success of this contract.

I would like you to know that I have shared this letter with the following personnel of the Alaska District: all people of the Environmental Engineering Branch, the Chief of Geotechnical Branch, and the Chief of Engineering Division. Thank you again for your exceptional work.

Sincerely,

Douglas R. Blaisdell
Engineering Manager
